MISSION

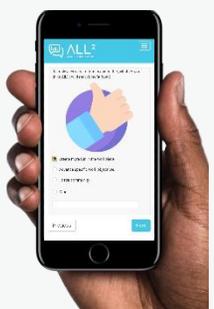

Gain actionable insights to improve employee experience, happiness, & values alignment in any size organization

When your organization is relying on you to deliver insights that impact employees, products, and customers, an antiquated Employee Satisfaction Survey simply won't do. Legacy ESATs are resource intensive, suffer from low participation, generate misleading data, and don't deliver actionable insights.

With ALL2, now better is possible

{ Ask }

ALL2 is the only provider with a *people-first, micro-poll* approach. We combine the best in modern tech with thoughtful question design that's segmented by industry, role, & department. While our uniquely fun user experience ensures maximum participation. Using bite-sized interactions over time we are able to capture real trends – not just a single static snapshot.

{ Listen }

ALL2 assessments give your employees a voice. In just seconds per day we create a more reliable data source, eliminating edge cases, and correcting for "bad days". Plus, our dynamic design tailors questions on-the-fly to ensure we get the right information from the right people at the right time.

{ Learn }

ALL2 analyzes the results and delivers real, actionable insights (not just a stack of charts) that further your people, product, and customer goals. We help ensure you free up valuable resources and remain focused on what really matters.

The ALL2 Difference

Save time and money with a fixed-price, **fully managed solution** including discovery, enrollment, insights, and analytics

Build trust and encourage honesty though our dedication to privacy and anonymity

Leverage our **in-depth expertise** deploying *culture by design* across industries and at every stage of company lifecycle

Partner with people driven by a **passion** for corporate culture & building happy, healthy teams

Simplify your workflow with our unique, full-service **engagement model** focused on your needs without internal bias

Benefit from higher participation with a **modern platform** focused on user experience

Ask the right questions using our **dynamic question** systems & micro-tailoring

Maximize ROI through actionable insights that are focused on outcomes

Why it works

We begin every engagement with in-person discovery sessions so that we are aligned to your goals.

Our unique *micro-poll* approach delivers fun, bite-sized interactions to your employees on a daily or weekly basis.

The UX-optimized, fully-responsive UI supports all devices and features interactive questions (with audio, video, & images) instead of basic plain-text inputs.

We supercharge delivery by supporting all modern channels including Email, SMS, QR Code, Slack, & more.

Collecting data regularly over time ensures we capture real-trends and can normalize results for edge cases, "bad days", and other pitfalls.

Costs & Timeframes

A typical engagement spans 6-8 weeks with a 4-week *micro-poll* runtime. Our all-inclusive, fixed-costs range between \$5,000 - \$25,000 depending on scale and complexity.
